Fw: Knowledge Transfer (KT) Completion – VSA OMS

From Shahid Raza <shahidraza@capitall.io>
Date Wed 11/11/2026 11:44 PM
To IT <it@capitall.io>

Dear IT Team,

I have handed over the required data. Kindly refer to the email thread below for your reference.

Please review the same and let me know if any further information or action is required from my side.

Thank you.

Regards,

Md Shahid Raza
Software Engineer

Subject: Re: Knowledge Transfer (KT) Completion – VSA OMS

Dear Shahid,

Thank you for sharing the KT details and documentation.

@sukhbahadur, please coordinate with Shahid and review all the VSA OMS and KGS-related tasks to confirm the current status, pending activities, blockers, and next steps. Also, verify that all migrations, code changes, and related documentation have been properly handed over.

Please share the final confirmation once everything has been reviewed and ensure that no pending work or documentation is left unaddressed.

Regards,
Prashant

Subject: Knowledge Transfer (KT) Completion – VSA OMS

Dear @prashant,

This is to confirm that I have provided the knowledge transfer (KT) and shared the relevant documentation for the **VSA OMS application**, covering the following modules and processes:

1. **Timesheet Management** – Timesheet creation, submission, approval/rejection workflow, timesheet requests, reports, and validations.

2. **Leave Management** – Leave application, approval/rejection, leave reversion, auto-approval, and related validations.

3. **Attendance Management** – Attendance records, leave reflection, attendance reports, filters, and Excel exports.

4. **Team Management** – Team member activation/deactivation, leaving date, and related processes.

5. **Rejoining and Promotion** – Rejoining workflows, designation changes, employee code handling, and data continuity.

6. **Notification Features** – Notification functionality and read/unread status handling.

7. **Assignment Management** – Assignment creation, team mapping, assignment viewers, partner mapping, assignment reports, and timesheet integration.

8. **Independence and Balance Confirmation** – Overview of the respective modules and their functionality.

9. **Other Features** – Activity logs, Unplanned Leave functionality, error pages, and the Report module.

10. **Application Flow and Documentation** – Relevant application workflows, business rules, validations, and supporting documentation.

The detailed documentation has also been shared for reference.

Kindly consider this email as confirmation of the KT completion.

Regards,

Md Shahid Raza
